Have you visited Tokyo before, but feel like you missed out on something? You're right, there's more! Even Tokyo residents who've lived their whole life here miss out on and have never experienced so many of the activities and fun existing in their own city.

“Tokyo, Level 2”, is an A to Z set of strategies to help visitors to the most wonderful city in the world find a greater experience, a deeper bond and connection with the world's most unique and fun city. This book will help you have more fun, find more meaningful moments, and not just see sights but live them out while you're here.

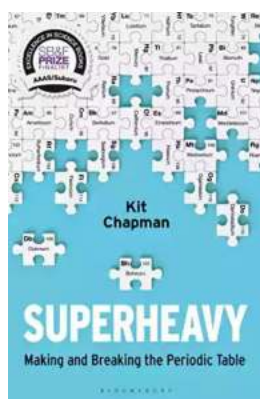

Not meant to be a sightseeing guide of Tokyo; there are numerous other writings of that nature. This book draws from personal experiences (and regrets), and recommends ways to take in, and take home, as significant a Tokyo experience as possible, no matter how long you're here for. This book can be a tool in creating a work of art; a Tokyo experience unlike any other you've heard of from anyone else, and best of all, you will have (mostly) found it by your own means.

Written by an American currently living in Japan, who has experienced Tokyo both as tourist and resident on multiple occasions, with a lot of guidance and influence from friends, people of Tokyo and nearby prefectures in the Kanto plain.
