

Death By Parachute And Other Scary Stories

Do you enjoy the thrill of horror? Are you fascinated by the unknown and the paranormal? If you are, then you've come to the right place! In this article, we will delve into the bone-chilling world of death by parachute and other terrifying tales that will send shivers down your spine.

Terror in the Skies: Death By Parachute

Imagine the exhilarating feeling of soaring through the sky, the wind rushing against your face while suspended mid-air. Skydiving is a popular sport that offers an adrenaline rush like no other. However, for some unlucky few, this exhilaration turned into sheer horror.

Reports of people meeting their untimely demise due to parachute malfunctions or tampered equipment are not unheard of. From accidental deaths to cold-blooded murders disguised as accidents, the stories surrounding death by parachute are truly terrifying. Are these truly just unfortunate accidents, or is there something more sinister at play?

Among the most spine-chilling cases is the story of Sarah Miller, a professional skydiver who had more than a thousand successful jumps under her belt. On a seemingly normal day, her parachute mysteriously failed to open, plunging her to her untimely death. Investigators were puzzled as there were no signs of equipment failure or sabotage.

Coincidence or conspiracy? This case, along with many others, continues to baffle experts and serve as a stark reminder of the dark dangers that lurk above us.

The Haunted Asylum: A Portal to Evil

Abandoned asylums have always captivated our morbid curiosity, as they are believed to house trapped spirits and unresolved horrors from the past. These eerie locations often serve as backdrops for paranormal activities and unexplained phenomena.

One such asylum, rumored to be a portal to evil, sends chills down the spines of even the bravest individuals. The Whittingham Hospital, located deep within the woods, is infamous for its haunting atmosphere and terrifying stories of ghostly encounters. From shadow figures lurking in the hallways to blood-curdling screams echoing through empty rooms, this asylum stands as a testament to the dark history it holds.

Legend has it that the hospital was home to deranged doctors who performed gruesome experiments on their patients. Many reports claim that the spirits of these tortured souls still wander the premises, seeking revenge on those who dares to trespass their eternal dwelling.

The Haunting of Blackwater Mansion

If you think haunted houses only exist in horror movies, think again. Blackwater Mansion, situated on the outskirts of a small town, is the epitome of fear and paranormal chaos. Locals claim that the mansion is cursed due to a dark and ancient ritual performed by its original owner.

Visitors to Blackwater Mansion have reported experiencing intense feelings of dread and being watched from unseen eyes. Eerie lights flicker in the windows at

night, and ghostly apparitions are often seen roaming the premises. Strange noises, such as ghostly whispers and doors slamming shut on their own, add to the terror that lies within the walls of this sinister mansion.

If you're feeling particularly brave, some daredevils have attempted to spend a night inside the mansion, hoping to unravel the mysteries that surround it. However, few have succeeded, with most fleeing in terror before dawn, vowing never to return.

The Curse of the Voodoo Doll

Voodoo is an ancient practice steeped in mystery and superstition. While many consider it to be mere folklore, there are chilling tales that suggest otherwise.

Among the most notorious stories is that of an old Haitian voodoo priest, rumored to have possessed a cursed voodoo doll capable of inflicting agony and death upon its victims. Those who encountered this sinister doll met tragic and inexplicable ends, leading many to believe that the curse placed upon it was real.

Reports of victims experiencing excruciating pain, mysterious ailments, and ultimately meeting their demise by unexplainable causes spread fear among those who dared to cross paths with the doll. Its whereabouts have remained unknown, fueling speculation that it still exists, lying in wait for its next victim.

The world of death by parachute and other scary stories is both thrilling and bone-chilling. Whether it's the eerie feeling of being watched, the paranormal

encounters in abandoned asylums, or the vengeful curses of haunted objects, these tales remind us that we are not alone in this world.

So, if you're brave enough, dive into the macabre and explore the terrifying stories that showcase humanity's darker side. But beware, for once you open the door to the unknown, there's no turning back.

Death by Parachute and other Scary Stories looks at some of the worldwide fatalities that the sport has suffered. There is no such thing as a safe skydive and we should be prepared for a serious malfunction from our very first jump onwards. When things go wrong you have just seconds to carry out vital actions that could either save, or take your life. At deployment time you have about twelve seconds at terminal velocity to hit the ground. And the remains of the human body hitting the ground at 120 mph is not an image that can be easily forgotten. We remember them, but have to handle that situation effectively or never jump again. I had a high speed spinning malfunction that almost cost me my life. The main parachute malfunctioned and in the spin I later calculated my Rate

of Descent to be in the region of 6,500 feet per minute. I tried to cutaway my main parachute but with between 22 and 33 'G' Force hitting my body I was unable to do so and then deployed my reserve with the main canopy still attached. This, under normal circumstances would have been fatal, but I had nothing to lose, and everything to gain as at 6,500 FPM I would certainly be dead, and so I rolled the dice. I did not black out as the blood was being forced across my body and not away from my head. The book looks at wingsuit mountain flying, the 007 James Bond and the Queen's skydive into the London Olympics 2012, Felix Baumgartner's skydive from the edges of space and also D. B. Cooper's hijack of a Boeing 727 on 24 November 1971. Additionally covered are Jumping into a Jetstream, Jumping over the Himalayas and a Super Hero who saved the lives of two skydivers, besides the many other stories told. Finally, the pioneers of BASE Jumping from the days of Léo Valentin and Franz Richest, to the modern BASE Jumpers, jumping off structures such as the Empire State Building, The Eiffel Tower and the Leaning Tower of Pisa to mention but a few.
