- Jonas Saul, author of the Sarah Roberts Series

What kind of satellite could be so heavy that it bends the sky below it and pulls the planet into an egg-shape?

But that's where Romo must go.

From Paul J. Joseph, the author of the ground-breaking science fiction series *Through the Fold*, featuring *Marker Stone*, *Homesick*, and *Splashdown*.

Romo's still doesn't remember what happened on the mysterious station, but he knows he was there before. He and his friends must trek through the ruined remains of a dead world and navigate the disparate provisional governments among the survivors to arrange transport.

But once onboard the *Introspector*, where ideas and reality are one, nothing makes sense. Not even time. There the horrors of the war are happening simultaneously with the distant past, and human-like entities mock the essence of life while trying to understand it. And somewhere deep inside, something terrifying and powerful is growing.

What did Romo see in the center of the station that he couldn't understand?

What will he have to become to learn?

And what does all this have to do with the mysterious Mars tycoon who dares to interfere?
