## Step 2: Adding Details

Next, add the sole of the shoe by drawing two curved lines that follow the outline of the bottom of the shoe. Then, draw a line across the top of the shoe to create the entrance. You can make it straight or add a slight curve to make it more interesting. Don't forget to add the chimney at the top of the shoe as well.

### **Step 3: Decoration Time!**

Now it's time to let your creativity shine! Decorate the shoe house however you like. You can draw windows, flowers, or even a pathway leading up to the entrance. Feel free to add any extra details that make your shoe house unique and special.

#### **Step 4: Coloring**

If you want to add some color to your shoe house, grab your colored pencils or markers and start coloring! Choose vibrant shades that bring your shoe house to life. You can use any color combination you like, so let your imagination run wild.

## Step 5: Final Touches

After you finish coloring, take a step back and admire your masterpiece. If there are any stray pencil lines, use an eraser to clean them up and make your shoe house look even more polished. And there you have it – your very own shoe house!
