Throughout history, many countries and regions were separated by ideological barriers. The Iron Curtain, a symbolic division that ran through Europe from 1945 to 1991, represented the divide between the Soviet bloc and the capitalist West. Behind this curtain lie forgotten remnants of a bygone era, patiently waiting to be rediscovered.

The Thrill of Exploring Forgotten Places

There is an indescribable allure to abandoned places. They hold a certain mystery and melancholia, reminding us of lives once comfortably lived or weryly abandoned. Behind the Iron Curtain, these places exist in abundance, waiting to reveal their secrets.

From magnificent palaces in Poland to grand factories in Bulgaria, the remnants of a forgotten empire stand tall amidst the passage of time. Tracing the footsteps of history, we venture into these desolate landscapes to uncover the untold stories held within.

A Glimpse into the Past

Our journey commences in the heart of Romania, where we stumble upon the eerie remains of a forgotten sanatorium. As we explore its decaying halls, we can almost hear the whispers of past patients and imagine the once-bustling atmosphere that filled the air.

Further north, hidden deep within the Ukrainian countryside, lies an abandoned military base frozen in time. Here, the remnants of a bygone era sit untouched - rusted tanks, crumbling barracks, and the echoes of forgotten soldiers that once walked these very grounds.

Moving westward, we encounter the impressive ruins of a factory in East Germany. The towering skeletal structure and decaying machinery give us a glimpse into the country's industrial past, a reminder of its once-thriving economy and the lives that were touched by it.

The Forgotten Riches: Tales of Discovery

Amidst the desolation, we embark on a quest for abandoned treasures left behind. In a forgotten castle, hidden deep within the Polish countryside, we uncover a secret chamber filled with priceless artifacts - artwork, jewelry, and historical relics that tell tales of a lost aristocracy.

Descending into the depths of an abandoned mine, we stumble upon a trove of forgotten gold. Gleaming in the dim light, these precious nuggets reflect the stories of miners who toiled tirelessly in their pursuit of wealth.

In a forgotten theater, the curtain rises one last time as we uncover a collection of vintage costumes, delicate props, and the ghosts of performances that once captivated audiences.

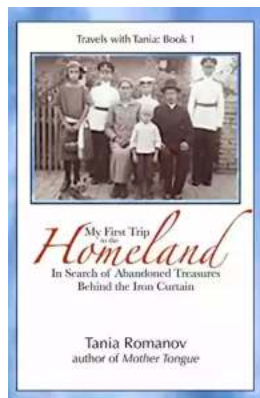

A Journey of Reflection

Behind the Iron Curtain, our journey not only allows us to discover the forgotten riches of the past but also serves as a reflection on the impact of history. These abandoned places symbolize the rise and fall of nations, the triumphs and tragedies that have shaped our world.

As the sun sets on our final expedition, we leave with a profound appreciation for the ephemeral nature of human existence. The abandoned treasures discovered behind the Iron Curtain remind us of our own mortality and the transient nature of success and prosperity.

Excerpted from the Amazon bestselling collection, *Never a Stranger: From her past in Croatia and Russia, to finding a son in Bhutan, to befriending women in Africa, one woman's stories of travel, connection, and self-discovery*

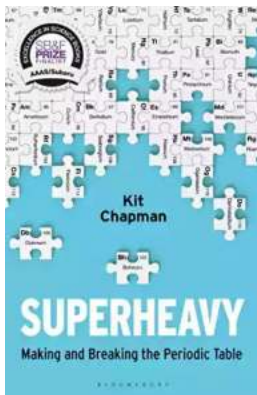

A trip to the heart of Russia From the author of *Mother Tongue: A Saga of Three Generations of Balkan Women* Although fluent in Russian, I have traveled to my homeland only once in my life, in the depressive years of the Soviet Union's Communist existence. That trip, in 1977, was occasioned by my position as an executive of a supercomputer company whose products were highly desired by the Soviets. As a result, I was allowed to travel to an area closed to tourists, the remote spot where my father was born before the revolution of 1917.

This is the story of that trip into the heart of Russia.
