The Power of Consciousness

Consciousness is not limited to human beings alone. From plants to animals and potentially even extraterrestrial creatures, consciousness permeates throughout the universe. By analyzing various phenomena and consciousness-altering practices, scientists have started to unravel the secrets of this omnipresent force.

In Volume One, Dr. Elizabeth Franklin, a leading expert in conscious evolution, showcases groundbreaking research on altered states of consciousness (ASC), demonstrating how these states can provide a gateway to contact non-human intelligence. Through subjects such as lucid dreaming, meditation, and psychedelic experiences, she reveals how ASC can bypass our limited human perception and connect us to a wider spectrum of existence.

Communicating with Non-Human Intelligence

But how do we establish communication with non-human intelligence? "The Science Of Consciousness And Contact With Non Human Intelligence Volume One" explores various methodologies and case studies that provide remarkable evidence of contact. Dr. Jonathan Reynolds, a renowned physicist and UFO

researcher, presents compelling data suggesting that structured light patterns emitted by UFOs might serve as a universal language for communication.

Additionally, Dr. Mei Ling Chen, a neuroscientist specializing in neurophenomenology, investigates the connection between consciousness and alien encounters. By examining the neural correlates of out-of-body experiences and incorporating witness testimonies, she offers a thought-provoking framework that bridges neuroscience, psychology, and the paranormal.

Expanding Our Perception Of Reality

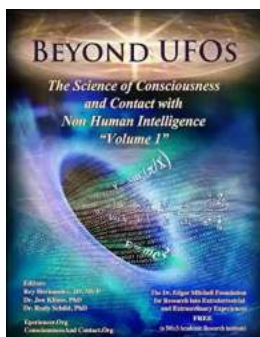

As we delve deeper into the pages of this groundbreaking volume, we encounter numerous personal accounts from individuals who have experienced contact with non-human intelligence. These extraordinary encounters have provided profound insights into the nature of reality and have expanded our understanding of consciousness.

From close encounters with extraterrestrial beings to telepathic communications, these personal narratives highlight the transformative power of contact experiences. The diversity and authenticity of these stories reinforce the notion that beyond our limited human perspective lies a vast universe of intelligence waiting to be explored.

"The Science Of Consciousness And Contact With Non Human Intelligence Volume One" is not just a book; it is a portal to a new era of human expansion. By blending cutting-edge science with personal narratives and thought-provoking reflections, this volume invites readers to challenge preconceived notions of reality and explore the limitless potential of consciousness.

This 820 page book details the academic research findings of the world's first comprehensive multi-language quantitative and qualitative 5 year academic research study on individuals that have had UFO related contact with Non Human Intelligence (NHI)-- The FREE Experiencer Research Study.

Over the last 5 years FREE has collected detailed responses to 3 extensive quantitative and qualitative surveys from over 4,200 individuals from over 100

countries. Our survey findings from these thousands of "Experiencers" contradict much of what is circulating in mainstream materialist Ufology.

Our academic book will establish a new paradigm for viewing the UAP (UFO) Contact Phenomenon. FREE argues that "Consciousness" and the paranormal and psychic aspects of this phenomenon is the key to understanding this complex phenomenon instead of the traditional materialist perspective of "nuts & bolt's" Ufology.

The Dr. Edgar Mitchell Foundation for Research into Extraterrestrial and Extraordinary Experiences, or FREE, is a 501c3 Academic Research Not for Profit Foundation. FREE was co-founded by the late Apollo 14 astronaut Dr. Edgar Mitchell, Dr. Rudy Schild, an Emeritus Research Astronomer at the Harvard/Smithsonian Center for Astrophysics at Harvard University, Australian researcher Mary Rodwell and Rey Hernandez, an Attorney and Experiencer who was a Ph.D. Candidate at the University of California at Berkeley. FREE is comprised of retired academic professors and lay researchers who have been researching the field of Unidentified Aerial Phenomenon (UAP) and contact with Non-Human Intelligence (NHI) for more than 30 years. The Executive Director of FREE is Harvard Astrophysicist Dr. Rudy Schild.
