It is 1299, fifty-five years after the tragic climax of *The Dove of Montségur*. The Inquisition in Southern France has revived its campaign against surviving Cathars. Elionor and Bernart, the grandchildren of Sibilialia and Guigo, have lost their family to this renewed repression.

Like their grandmother before them, the siblings have a mission: they must travel through southern France and northern Italy to collect and deliver a secret intended to protect the culture of their people, the Cathars or Goodmen. On their journey Elionor and her brother encounter nobles, bandits, craftsmen, hidden allies, crusaders, traitors and sweethearts.

Their destination is Florence, and a poet whose life work will change European culture forever. Dante Alighieri has offered to help the Goodmen through his writings: from their gift to him will spring his gift to them, and to the world.

Based on historical events, *Dante's Gift* describes life in medieval France and Italy and the epochal changes taking place in Florence, a city on the brink of becoming Europe's most important cultural centre despite being riven by greed, discord and treachery.
