Print length : 360 pages

The Adirondack Park is an immense wilderness encompassing more than 9,375 square miles. Within its boundaries are rugged mountains, countless pristine lakes and ponds, seemingly endless forests, and thousands of miles of wild rivers, providing an infinite number of outdoor adventures. The revised edition of Five-Star Trails: Adirondacks, by Tim Starmer, features six new popular trails and provides a detailed guide to some of the most stunning views found across the Adirondacks. Included are rugged and steep ascents up Snowy Mountain in the Central Adirondacks, which many consider the 47th high peak, and isolated Debar Mountain in the northern Adirondack region. Distance hikers will love the long trek into the High Peak Wilderness to see the amazing Hanging Spear Falls along the Opalescent River.

Also new to this edition is the less difficult but equally scenic vistas of the Eastern Adirondacks and Lake George described along the Black Mountain trail. And delve back into the remote depths of the High Peaks region to explore some of the most unique trails with descriptions of Wright Peak, Avalanche Pass, and the second highest mountain in New York, Algonquin Mountain.

Each hike features an individual trail map, elevation profile, and at-a-glance information.
